## Mandate 2023 - Strengthening Our Organizations

After a slight recovery from the COVID pandemic in 2022, organizations have started to adjust to the realities of the new economy and workplace that have arisen from its ashes. As 2022 came to an end, many countries across both the developed and developing world started to experience another period of declining economic growth. Global players have responded with massive layoffs and the shrinking of their operations, with a domino effect expected on governments, industries, and individual companies in 2023. Therefore, the agenda for 2023 must be to strengthen our organizations to be resilient enough to survive shocks and to position our organizations for the future, whatever that future may be.

Our focus at Learning Impact is to provide you with the ideas, solutions, frameworks, tools, and capacity to strengthen your organizations. In 2023, we will be rolling out more of our “people-technology solutions,” a term that we use to describe a variety of automation tools and software that organizations can deploy in the area of people management. These include our flagship PTracker—a strategy and performance tracking dashboard; Leader360, TeamPlayer360, and TrafficLights360, our collection of 360 evaluation tools; LD Planner—a tool that automates the annual development planning process; and PRater—our performance appraisal tool.

These tools will help strengthen various aspects of performance management, employee development, and overall people management in your organization. Remember, to strengthen our organizations, we need to “inspect what we expect,” and these people-technology tools will ensure that you can do so.

In addition to our people-technology solutions, we are also available to support your goal of strengthening the capabilities of your people with our unique eLearning solutions. Specifically, we can work with you to customize and deploy an online learning management system that will scale your learning interventions and give you a better return on your learning investments. You may also take advantage of our eLearning content and conversion solutions to support your existing eLearning infrastructure. eLearning is certainly the most powerful tool at the disposal of forward-thinking organizations wanting to scale and enhance the impact of learning in their organizations. Remember, your organization needs to be constantly innovating to stay alive and prosper, and organizational learning is at the heart of this innovation.

Another focal area for us in 2023 and beyond will be in supporting our clients and partners with evidenced-based HR solutions and tools, particularly in the measuring employee wellness, engagement, and cultural alignment. We believe in data-driven HR and the use of evidence in making decisions regarding the well-being of your people and organization. Our assessment tools are based on well researched and empirically tested models and scales.

2023 is a major election year in Nigeria, our flagship location, and as a company we remain committed to supporting leadership development, good governance, effective political participation and #Politeracy. We will continue this focus in 2023 by providing complimentary seminars, resources and learning tools to support our communities and stakeholders in the areas of leadership development; creativity and innovation; financial literacy; communication skills; values reorientation; and #politeracy.

This will continue to be the main thrust of our Corporate Social Responsibility Projects in 2023 and beyond – our modest contribution to building a pipeline of God-fearing, purposeful and competent leaders who are committed to the common good and will lead the Nigerian and African renaissance that we all yearn for.

Learning Impact will continue to lead and offer support in its traditional areas of corporate training in leadership and management, personal effectiveness, creativity and innovation, sales and service delivery, communication skills, business acumen and financial literacy, and human resources and learning. In addition, we will continue to support our clients in the areas of organizational development and strategic human resource management, as well as with the development and deployment of organizational strategy using tools like the balanced scorecard and blue ocean strategy.

For our key stakeholders in Human Resources and Organizational Learning, we will continue to provide thought leadership with our research-driven solutions, ideas, and publications through our flagship Efiko podcast. We will also continue to deepen our commitment and participation in the various professional bodies to which we belong – locally and internationally, including but not limited to the Chartered Institute of Personnel Management (CIPM); Human Resources Management Association of Trinidad & Tobago (HRMATT); Nigerian Institute for Training & Development (NITAD); Association for Talent Development (ATD); the Learning & Development Network International LDNI; and the Academy of Management (AOM).

We believe that with all of these and much more, Learning Impact is your preferred partner to support you in strengthening your organization and building the resilience that you need in 2023 and beyond.

Omagbitse Barrow FCA

## About Learning Impact

Learning Impact is a leading provider of Organizational learning, strategy consulting and financial literacy solutions in Nigeria. The was incorporated on the 25<sup>th</sup> of June 2010 and was founded by Omagbitse Barrow, a young and dynamic Investment Banker, turned Human Resources and Learning Manager who had spent a decade working at Investment Banking & Trust Company (IBTC) and later Stanbic IBTC Pension Managers and Stanbic IBTC Bank.

In the early days (2010-2013), Learning Impct was the exclusive license partner for John C Maxwell Corporate Leadership Development Programs in Nigeria. The company still offers John Maxwell Training Programs through its leaders who are members of the John Maxwell Team.

However, most of the company's focus has been in developing and deploying bespoke learning and consulting solutions for its clients across 7 major areas of learning and in a variety of specialist areas of consulting and creative solutions.

We have worked with some of the largest institutions across a variety of industries in Nigeria's private, public and non-profit sectors. In addition to traditional classroom training, we are at the forefront of the use of learning technology in Nigeria with our innovative Animated Educational Videos that we have deployed for several institutions; our 100% home-made Learning Management System with robust indigenous courseware; and our unique EPaper Vendor service and other Knowledge Management Services that we offer.

Our vision is to help Organizations, individuals and our society to be better, and our core capabilities are around research, innovation, cost-effectiveness, and a passion for impact. The values that drive us are Leadership, Learning, Selling and Service, and our employee proposition and brand are woven around these.

We are a Company that dares to be different, and desires to do great things for our society and our world, so please join us on this mission-critical journey to help us all to BE BETTER.

Regina Makyur  
Chief Operating Officer  
regina.makyur@learningimpactmodel.com  
Abuja, NIGERIA

## Our Learning Design & Delivery Methodology

Based on our proprietary Learning Impact Model, our team of designers and facilitators at Learning Impact are focused on ensuring that the impact of all our solutions are sustained beyond the “event” or “intervention”. We pay attention to the following in all our intervention design and delivery:

- **Adult Learning Principles** - There are a number of principles of adult learning that drive our approach including but not limited to the fact that adult learners are pressed for time; goal-oriented; bring previous knowledge and experience; have a finite capacity for information; have different motivation levels and have different learning styles.
- **Human Performance Improvement** - We ensure that we undertake a root-cause analysis of the performance challenges that organizations are facing and use this as the basis of designing our solutions and interventions. This way we deal with the real issues and not just the symptoms.
- **The Learning Impact Model** - We encourage our clients to deploy a learning policy framework that creates awareness and desire through pre-training activities; builds knowledge and ability through the actual content and delivery; and reinforces learning through post-training activities. This way, learning and consulting solutions create real CHANGE in the organizations.
- **Programmatic Evaluation** - We focus on evaluating the impact of learning using a variety of tools across the four levels of evaluation - reaction, knowledge transfer, behavioural change, and impact.
- **Experiential Design & Delivery** - We are champions of the use of experiential delivery and facilitation techniques particularly in the areas of indigenous case studies and rich media
- **Scalability and Impact:** Using learning technology and the support we give to internal faculties with our customizable content, we help to increase the scalability and impact of our solutions.

Our commitment to these underlying principles will ensure that learning creates a CHANGE for your team members and your organization.

Ogochimelu Ejike  
Organizational Development Consultant  
[Ogochimelu.ejike@learningimpactmodel.com](mailto:Ogochimelu.ejike@learningimpactmodel.com)

Good and timely refresher on our approach to performance management. Facilitator had knowledge of application of performance management in FMN. – *Flour Mills Nigeria*

The facilitator's training style! So unprofessionally professional. I learned a lot from him! A perfect balance of fun, play, paparazzies and depth Knowledge. – *ARM Academy*

The to do list really showed me I can Improve on my productivity and efficiency. - *MTNN*

It's a good course that improves capacity building among teachers and. A ripple effect on the students. Very grateful for this opportunity. – *AL- Hidaayah*

There is need for more of this training to enable HR and line managers acquaint themselves with the technical skills, in-depth understanding and capacity needed to develop, align and implement HR strategic objectives alongside the corporate objectives of the organization that are result driven/oriented. – *Abuja Investment Company Limited – Strategic HR*

This workshop was the most practical I have attended in the recent past. Facilitator carried us all along. The training was so practical, the facilitator mad sure we understood all the topics discussed. I recommend this training for all working in the financial/Pension Sector. - *PenOp*

	The Performance Doctor	Performance Consulting.	Participants will be able to diagnose performance challenges, develop and implement solutions to address those challenges and enhance the overall performance of the organization.
	The Master Trainer	Experiential Learning Design & Facilitation	Participants will be able to design and deliver training programs using a variety of experiential techniques that reflect the principles of adult learning.

## SCHOOL OF SALES & SERVICE DELIVERY

Customers are at the heart of every successful organization - they pay our salaries, so we must be good at finding new customers and transforming our existing customers into advocates.

Our School of Sales & Service Delivery provides a number of learning interventions and programs that will help build these capabilities in your people and teams as follows:

S/No	Brand	Workshop Name	Description
	The Lean Machine	Managing Operational & Service Excellence	Participants will be able to apply a variety of tools, skills and frameworks to improve the operations of the various departments and activities in their organization.
	Delightful Service	Managing Customer Experience	This workshop is focused on building the capabilities of professionals to offer fantastic service, meet and exceed customer expectations, manage customer experience and create advocates out of their customers
	Winning Hearts & Pockets	Consultative Selling	Participants will be able to use consultative selling techniques to drive their entire sales process so that they can have a constant pipeline of potential customers and keep the cash register ringing.

## SCHOOL OF LEADERSHIP AND PEOPLE MANAGEMENT

Everything rises and falls on leadership - the quality of leadership determines the success of any organization. If you want to achieve sustainable success, then invest in leadership development for all your employees.

Learning Impact's School of Leadership and People Management provides a number of learning interventions and programs that will create a culture of leadership in your organization, as follows:

S/No	Brand	Workshop Name	Description
1	Inspect what you Expect	Managing Employees Performance	This workshop will equip participants with the skills and tools for setting performance goals, measuring performance, driving performance, appraising performance and managing poor performance.
2	People Matters Matter	Emotional Intelligence & Teamwork	Participants will be able to manage themselves and others better, handle conflict and difficult conversations and work more effectively in teams to achieve results.
3	The Hope Dealer	Effective Leadership	This workshop will equip participants with various tools and models to increase their influence and impact on those they influence.
4	Follow My Lead	Mentoring Skills	Participants will be able to provide mentorship, guidance and support to others using the skills for effective delegation, feedback, teaching and motivation that all good mentors have.

5	Getting it Right the First Time	Supervisory Skills for First Time Managers	First-time managers will be equipped with the skills, tools and resources to transition into supervisory positions and achieve the right results as they do so.
6	Leading from the Middle	Middle Managers Workshop	Leaders in the middle face a variety of pressures and require certain skills in Organizational savvy, influencing and advocacy to achieve the 360-degree results that they require.
7	Next Generation Leaders	Leadership for Future Leaders	This is targeted at your brightest and most talented young professionals who need to be prepared and challenged to take up leadership.
8	The Language of Leadership	Coaching Skills	Coaching is the non-prescriptive language/style of leadership that challenges others to achieve their goals through questioning, evaluation, goal setting and feedback. Participants will be equipped to be coaching leaders and get better results from their teams.
9	The Golden Workplace	Workplace Ethics	Participants will be able to make better and more ethical decisions across all areas of their work and life using time-tested principles like the Golden Rule, The Sunshine test and much more.

## SCHOOL OF PERSONAL EFFECTIVENESS AND PRODUCTIVITY

If everyone had a clear sense of who they were and what was expected of them and had a disciplined and creative way of applying themselves to their work, then we would have a lesser need for a lot of supervision and management.

Learning Impact’s School of Personal Effectiveness and Productivity provides a number of learning interventions and programs that will help build these capabilities in your people and teams as follows:

S/ No	Brand	Workshop Name	Description
1	Be Better	Personal Accountability and Development	Participants will be to take ownership of every aspect of their lives and careers, ensure alignment with the work that they do and coach themselves to higher levels of achievement.
2	Work Smart not Hard	Personal Effectiveness & Productivity	This workshop will equip participants will tools, resources and skills to manage time, energy, priorities, stress, colleagues and be able to achieve better results in their work and lives.

## JOHN MAXWELL LEADERSHIP DEVELOPMENT PROGRAMS

If there is one culture that all organizations **MUST** invest in, it is in creating a culture of leadership - where people take ownership, drive themselves and others towards results and keep raising the bar on their performance.

John C Maxwell's Leadership Development programs run by the faculty of John C Maxwell Team members in Learning Impact NG will help create that culture in your people and organization.

S/No	Workshop Name	Description
1	Developing the Leader Within You	Participants will learn to grow their leadership through influencing, building relationships, driving results and creating a leadership legacy.
2	Learning the 21 Laws of Leadership	Participants will apply the 21 Irrefutable Laws of Leadership to improving their leadership of self, others, teams, results and transformation.
3	How to be a R.E.A.L Success	The program focuses on tools, resources and skills for Relationships, Equipping, Attitude and Leadership to create sustainable personal and Organizational success.
4	Learning to Become a Person of Influence	Participants will learn how to become <b>INFLUENCERS</b> by applying various tools, resources and skills for leading themselves and others.

	Leadership Gold	Participants will apply some of the most precious lessons John Maxwell has learned in his over four decades of leadership development to their life and work.
	Winning with People	Participants will learn how to be people-people, and to build, sustain and leverage effective relationships with others to achieve sustainable success.

# Strategic Consulting Solutions

Learning Impact NG has built an enviable track record providing strategic consulting solutions to its clients across the private and public sector in Nigeria in a number of different industries. We deploy a number of innovative models for problem solving and performance improvement to ensure that the solutions that we develop and implement meet the needs of our clients. Our solutions typically cover the following areas:

## Strategy Development & Implementation

Learning Impact NG works with organizations to develop and implement organization-wide and departmental strategies using the combination of its proprietary Creative Thinking Strategy Development Tools and the critically acclaimed Balanced Score Card toolkit. We work with organizations through a disciplined process that starts from a rigorous organizational diagnostic to preparing an executing a strategic off-site/retreat, all the way to managing the implementation of the strategy. We use a bottom-up, top-down approach that ensures that all stakeholders are adequately engaged and that the strategy can be “owned” by all across the organization.

In the last ten years we have supported institutions such as the Corporate Affairs Commission’s Information Technology Department, Layer 3 Limited, Sigma Pension Managers Limited, Oak Pension Managers Limited, Cornerstone Montessori School, Creative Learning International School, PAL Pensions, Formats POS, Air Separation, Exxon Mobil’s External Relations Department and Veritas Pension Managers Limited with our Strategy Development & Implementation Solutions.

## Performance & Process Improvement

Organizations need to review their systems for managing performance from time to time, especially to make the necessary transition from behaviour-based performance management systems to more results-based systems with clear accountabilities and goals. Learning Impact NG has developed a number of unique tools and protocols to help organizations make this transition and make improvements to their performance management systems. In addition, we work with organizations to review their existing operational processes and workflows across various departments and units so that they can be more effective and efficient. Organizations such as Oak Pensions, Veritas Kapital Assurance, Veritas Pensions, Sigma Pensions, Fatima School, Stanbic IBTC and a host of others have benefitted from our expertise and experience in performance consulting and process improvement.

## HR Transformation

The Human Resources Department of many organizations unfortunately, continue to run in “personnel management” mode and Human Resources Managers still struggle to get a seat at the Strategy Table, remaining an after-thought or a mere appendage that at best “supports” the organization and its leaders.

Forward-thinking organizations understand the strategic role that the Human Resources Management function should play as a driver and enabler of the organization’s strategy. To support such organizations, Learning Impact NG is available to build a new HR architecture for such organizations, enhance the capabilities of the Human Resources Professionals, and build the capabilities of Line Managers and leaders to run a more strategic human resources management framework and organization based on Dave Ulrich’s critically acclaimed Strategic HR Model and Capabilities.

In addition to supporting broad-based HR Transformation, Learning Impact NG is also available to work with organizations develop policies, frameworks and tools to enhance the following areas along the Employee Life Cycle:

- Competency Frameworks
- Strategic Resourcing
- On-Boarding & Induction
- Career Management
- Talent Management
- Succession Planning
- Leadership Development
- Reward & Recognition
- Exit Management

Unity Bank, Oak Pensions, Sigma Pensions, Consolidated Breweries (now Nigerian Breweries), Stanbic IBTC Pensions, Veritas Pensions, Earth Point & Modern Shelter are organizations that have taken advantage of our HR Transformation capabilities at Learning Impact NG to improve the impact that HR has in these organizations and improve the return that these organizations get on their People Assets.

## Workplace Coaching & Mentoring

Forward-thinking organizations now understand the imperative of developing and implementing formal workplace mentoring and coaching programs as part of their general programs for employee development, talent management, leadership development or even new employee orientation. Learning Impact NG has worked with the Nigerian Deposit Insurance Corporation, Asset Manage-

ment company of Nigeria, Consolidated Breweries, Stanbic IBTC, Union Bank, Oando Plc and a host of others to design and implement Workplace Mentoring and Coaching Programs that align with their various strategic needs.

## **Project Implementation, Monitoring & Evaluation**

Learning Impact NG has supported a number of not-for-profit organizations in the conceptualization, design, implementation and evaluation of a number of social projects including working with the Thoughtful House Foundation on their various Autism Awareness Walks and projects to support children and families on the Autism Spectrum since 2012; Africare, on its life skills and basketball program, Power Forward since 2015; Be Better Foundation's Financial Literacy and Life Skills initiatives since 2014; and Lux Terra Leadership Foundation's Good Governance & Accountability Programs since 2018.

We use a variety of tools and protocols to ensure the innovative conceptualization of these projects and the disciplined execution and M&E frameworks that they need.

## **Organizational Learning Projects**

Learning Impact NG has supported organizations like Unity Bank, Sigma Pensions, Hygeia HMO Limited, Stanbic IBTC, Consolidated Breweries, Diamond Bank (now Access Bank), Oando Plc and others to design and implement customized learning solutions that we have licensed to those organizations as part of their on-going in-house learning resources and programs. These include e-learning products, digital learning products, Training Modules and Manuals and virtual library content.

Since 2014, Learning Impact NG has provided a unique knowledge management solution to over 100 organizations in Nigeria via [www.epapervendor.com](http://www.epapervendor.com) providing the PDF version of Nigerian Newspapers to thousands of readers across these organizations each day. The EPaper Vendor from Learning Impact NG is the largest independent provider of electronic newspaper services in Nigeria. The solution supports research, business development and the organizational learning needs of these organizations.

Ogochimelu Ejike  
Organizational Development Consultant  
Ogochimelu.ejike@learningimpactmodel.com

## PeopleTech Solutions

As we continue to take advantage of new and emerging technologies to improve various aspects of our work and lives, there are certainly more opportunities to take advantage of technology in managing our people and organizations.

Historically, many of the technology solutions in the organizational development and people management space have been imported into our country by foreign companies or their local partners. These solutions lack the original local content and context, are often too expensive in the face of our floundering currency and are difficult to maintain across borders. Learning Impact NG is poised to fill the yawning gap in this area and position itself as a leading provider of PeopleTech Solutions in Nigeria.

Our flagship solution that transformed the knowledge management landscape since 2015 – is the EPaperVendor – [www.epapervendor.com](http://www.epapervendor.com) – the largest provider of PDF newspapers in Nigeria that is used by organizational leaders in some of the leading institutions across the private, public, and not for profit sectors.

Our readers gain access to the complete PDF version of their favourite Nigerian newspapers each day, offering convenience, flexibility, digital archives, and affordability - all in one. Deloitte, CBN, Access Bank, Stanbic IBTC, The Nigerian Navy, AMCON, NETCO NNPC, NIPC, NIBSS and NEXIM are just a handful of organizations whose senior leaders and executives read their newspapers each day from the EPaperVendor.

In the eLearning space, we launched the Online Efiko at [www.onlineefiko.com](http://www.onlineefiko.com) and will soon have the largest collection of indigenous e-learning content in personal and professional development available to learners across the African content. We also offer the EfikoLMS – a fully customizable learning management system that supports SCORM-based content that can be deployed for your organization. We can support your organization in eLearning content design and development as well as the conversion of your existing content as we have done for institutions such as FBNQuest Merchant Bank in the last year.

Learning Impact is set to transform the world of organizational learning with our soon to be released LD Core application - the first of its kind, fully integrated Learning & Development Core Application that will ensure end-to-end automation of organizational learning process and activities. We also have developed an array of 360-degree leadership evaluation tools - the Traffic Lights 360 and the Leader360 solutions that will provide leaders feedback regarding their leadership capabilities that are critical to the success of your organizations.

Our PTracker is a fully integrated strategy and performance management dashboard that is used to capture, track and report on organizational strategy and performance. The Pension transitional Arrangement Directorate (PTAD) has deployed the PTracker since 2020 to ensure that it delivers on its mission-critical mandate to pay the retirement benefits of retirees under the old Defined Benefits Scheme in Nigeria.

Like the PTracker, another of our solutions is the HR Meter - a performance management dashboard that will leapfrog HR professionals from being “paper pushers” as some of the skeptics think of them to becoming strategic partners, by providing strategic HR metrics that will measure what matters and help HR professionals to speak the “language of the business”.

Our team of organizational development experts, learning technology specialists, product developers and application developers are continuously researching new areas for people tech development to improve people management and organizational effectiveness.

We are available to work with you to identify some of the specific needs that you have to improve the effectiveness of your organization and can help to build customized and bespoke solutions to address your needs and challenges.

At Learning Impact, we have demonstrated a commitment to indigenous technology development to offer real value to our clients and our community. We invite you to take advantage of our people tech solutions to transform the effectiveness of your people and your organization.
